colorCUT Business Card Cutting

Cutting cassettes Intec offers a choice, for cutting different card widths:
85mm, 89mm, 90mm, 95mm

Affordable and fast, business card cutting

Setting new standards in cost, flexibility and speed, the Intec BC480 Business Card Cutter works along side any digital printer or even digital photocopier to produce professionally cut business cards automatically easily and fast.

Versatile, fast multi-card cutting

Whether used by a small business or large printing company, the Intec BC480 automates and simplifies business card production – cutting a 12"x18" sheet of 21 x cards in just over 8 seconds.

This enables users to cut 250 x business cards in only 96 seconds!

Ultra accuracy is standard

Able to sense the sheet's front edge, the BC480 cuts at precise intervals, as required. In addition the unit can scan for cut registration marks placed on the printed sheet and will adjust itself to the image, automatically producing the perfect cut every time.

Business cards and beyond...

The BC480 can also cut post cards, compliment cards, appointment cards and custom card sizes, using pre-set programs.

So easy to use...

Card cutting made easy!

- Cuts 250 x cards from 12"x18" sheets in approximately 96 seconds!
- Adjustable cut lengths and widths
- Cut mark registration compensates for image shift, to deliver incredible accuracy!
- Sheet edge sensing to set cut position
- Fixed or custom card sizes with a selection of interchangeable cassettes
- Auto stack feeding or set number sheet feeding enables automation of process
- Suitable for 12"x17" and 12"x18" paper sheet sizes
- Cuts up to 350gsm
